ANONYMOUS DATA COLLECTED

In addition to the personal information we collect as described above, we use technology to collect anonymous information about the use of our website. For example, our web server automatically logs which pages of our website our visitors view, their IP addresses and which web browsers our visitors access. This technology does not identify you personally - it simply enables us to compile statistics on the use of the website. All of this information is collected and used only in the aggregate, where we can use it to generate overall reports on website use, but not reports about individual users.

Our website contains hyperlinks to other pages on our website. We may use technology to track how often these links are used and which pages on our website our visitors choose to view. This technology does not identify you personally – it simply enables us to compile statistics about the use of these hyperlinks.

We also use your IP address to help diagnose problems with our server and to administer our website. An IP address is a numeric code that identifies your computer on a network, or in this case, the Internet. Your IP address is also used to gather broad demographic information.

We may also perform IP lookups to determine which domain you are coming from to more accurately gauge our users' demographics.

TRACKING

Like many site operators, we collect information that your browser sends whenever you visit our Site ("Log Data"). This Log Data may include information such as your computer's Internet Protocol ("IP") address, browser type, browser version, the pages of our Site that you visit, the time and date of your visit, the time spent on those pages and other statistics. In addition, we may use third party services such as Google Analytics that collect, monitor and analyse this data.

COOKIES

Like many sites, we use "cookies" to collect information. You can instruct your browser to refuse all cookies or to indicate when a cookie is being sent. However, if you do not accept cookies, you may not be able to use some portions of our Website.

LINKS TO OTHER SITES

Our website may contain links to other websites operated by third parties. We make no representations or warranties in relation to the privacy practices of any third-party website and we are not responsible for the privacy policies or the content of any third party website. Third party websites are responsible for informing you about their own privacy practices.

OPENNESS

If you have any additional questions or concerns about our privacy practices, we invite you to contact us by email at info@agritechnovation.co.za and we will address your concerns to the best of our ability.
