DIRECTIONS FOR USE

LEACH™ is a suspension concentrate of calcium and sulfur that can be applied through irrigation systems.

LEACH™ will be influenced by differences in varieties, soil and environmental conditions and should be applied under conditions of optimum plant growth. Optimum conditions are defined as adequate humidity, moderate temperatures and adequate soil moisture.

For optimum results LEACH™ should be used in a plant nutrition program. Recommendations should be based on soil and leaf analyses.

APPLICATION RATES

The rate of application is dependent on the soil fertility and reaction required. See table of recommended application rates. The lower rates should be used for maintenance while the higher rates will correct nutritional deficiencies.

MIXING

Always mix LEACH™ with sufficient quantities of water. Never apply LEACH™ undiluted. Follow standard tank mixing procedures. Ensure good agitation throughout application.

COMPATIBILITY

It is advisable to do a miscibility test prior to mixing with any other product and to consult with a qualified advisor or distributor.

DISCLAIMER

The manufacturer, importer and seller make no express or implied warranties, including any warranty of merchantability, fitness for a particular purpose, or suitability. The product is sold "AS-IS". All sales are final. In no event will manufacturer, importer and seller have any liability for any damages, whether direct, incidental, special or consequential arising out of or in connection with any duty with respect to the product, including, but not limited to lost profits, lost sales or injury to persons or property. Manufacturer, importer and seller's liability on any claim of any kind, including but not limited to warranty, negligence, strict liability, and any other cause of action, for any loss or damage arising out of, connected with, or resulting from the performance or breach of the terms of sale of any goods, or any related services related to sale, delivery, resale, technical direction, inspection, operation or use of any goods or services or part of those goods or services will in no case exceed the purchase price allocable to the goods or services or part of those goods or services that gives rise to the claim. Manufacturer, importer and seller make no representation whatsoever with regard to whether any goods comply with the Occupational Safety and Health Act (OSHA), the Americans with Disabilities Act (ADA), or any other federal, state or local statute, law, ordinance or ruling. Customer, buyer and user assume all responsibility for use of product.

MICRO SUSPENSION LIQUID CALCIUM AND SULFUR CONCENTRATE

STORE ABOVE 40°F

DENSITY: 11.35 LBS/GAL @ 68°F (20°C)

Information regarding the contents and levels of metals in this product is available on the internet at <http://www.aapfco.org/metals.html>

KEEP OUT OF REACH OF CHILDREN.
DANGER Causes skin irritation.

May cause damage to organs through prolonged or repeated exposure.

Avoid breathing spray. Wash face, hands and skin thoroughly after handling. Wear protective gloves, protective clothing and eye protection. Take off contaminated clothing and wash before reuse.

IF ON SKIN: Wash with plenty of soap and water. If skin irritation occurs: Get medical attention. Dispose of container in accordance with regulations.

NET CONTENTS: 265 GALLONS (1 003.13 Liters)
NET WEIGHT: 3 007.22 LBS (1 364.05 kg)

CAUTION

Do not store mixed product for more than 8 hours. Do not exceed the appropriate application rates.

Consult with your distributor, crop adviser or manufacturer should crop specific programs, or any other information be required around the use of this product.

STORAGE & DISPOSAL

Store product in original container. DO NOT store in excessive cold or heat or direct sunlight. DO NOT reuse container. DO NOT contaminate water, food or feed by storage or disposal. Keep packaging closed, securely fastened and upright.

APPLICATION RATES

Crop	Maximum Application Rate		
	Overhead Irrigation	Micro Irrigation	Drip Irrigation
Grain and field crops	5 – 10 gal per acre		
Vegetable crops	5 – 10 gal per acre	1 gal per acre	4 qts per acre
Orchards and vines		5 – 8 gal per acre	5.5 gal per acre
Nuts		6 – 8 gal per acre	6 – 8 gal per acre
Turf and grass	10 – 15 gal per acre		

ENSURE MICRO AND DRIP LINES ARE CLEAN BEFORE APPLYING LEACH™ THROUGH THESE IRRIGATION SYSTEMS. CONSULT YOUR IRRIGATION SPECIALIST FOR GUIDANCE.
